Source: AACOM, Annual Osteopathic Medical School Questionnaire, 2010-11 academic year

¹n/a indicates COM answered 'no' to rural or underserved clinical rotation requirement

³PNWU-COM and RVU-COM enrolled their first class in Fall 2008. COMs did not have clinical clerkships in 2008-09.

⁴The number of individual sites at which an osteopathic medical college offers clinical clerkships varies widely. Factors that influence the number of sites used by a college include- the mission of a college (e.g., training physicians for rural primary care), geographic location of the college, size and scope of programs available at the various sites used by the college, student body size, clinical training curriculum integration and evaluation systems, and special relationships between the college and clinical sites.
