## A Comprehensive PE Prep Program

This 1 1/2 day comprehensive PE Prep Program provides medical students with intense, targeted hands on experiences to maximize existing and emerging skill sets necessary for the successful completion of performance type examinations. Highlights of this program include:

- OPP and communication instruction designed specifically for clinical performance type examination situations
- Individual and group experiences designed to identify students strengths and weaknesses
- Numerous real-time standardized patient encounters with immediate feedback, video review and detailed individualized assessment of key areas including; history taking, physical examination, OMT, SOAP notes, and communication skills
