

AOGME Strategic Goals 2018-19

1. Provide resources to assist graduate medical education programs in successfully achieving and maintaining continued accreditation.
2. Provide leadership and professional development opportunities that contribute to the success of AOGME members and their programs, and support members in adapting to their changing roles and responsibilities.
3. Promote the value of the osteopathic learning environment to residency training and patient care, and provide support to programs in obtaining osteopathic recognition.
4. Create a learning community of osteopathic medical educators to advance excellence and innovation throughout the osteopathic learning environment.
