Appropriations Committee
United States Senate
Washington, DC 20510

The Honorable Jerry Moran
Ranking Member
Subcommittee on Labor-HHS-Education
Appropriations Committee
United States Senate
Washington, DC 20510

Dear Chairman Kingston, Chairman Harkin, Rep. DeLauro, and Senator Moran:

The 58 undersigned members of the Health Professions and Nursing Education Coalition (HPNEC) write to recommend \$520 million for the Health Resources and Services Administration (HRSA)'s Title VII health professions and Title VIII nursing programs in the FY 2014 Labor-HHS-Education spending bill. HPNEC is an alliance of national organizations representing schools, programs, health professionals, and students dedicated to ensuring the health care workforce is trained to meet the needs of our diverse population.

Titles VII and VIII, which celebrate their 50th anniversary in 2013, play a critical role in helping the health professions workforce adapt to meet the nation's changing health care needs. By providing educational and training opportunities to aspiring and practicing health professionals, Titles VII and VIII are the only federally-funded programs that seek to improve the supply, distribution, and diversity of the health professions workforce. As demand for health professionals grows in the face of impending shortages and a growing, aging population, continuing the investment in health professions workforce development will be key to ensuring access to high quality care for all.

Failure to support the full range of health professions workforce programs will have serious consequences for the pipeline that helps to ensure access to quality care for vulnerable and underserved patients. Further, given the synergistic nature of the programs, significant cuts to or elimination of any of the Title VII and VIII programs may reverse the progress to date in mitigating the country's most pressing health care challenges.

While HPNEC recognizes the challenges you face in a difficult fiscal environment, we urge you to ensure the next generation of health professionals is equipped to address the nation's health care complexities by providing \$520 million for Titles VII and VIII in FY 2014.

Sincerely,
