Single GME Accreditation System Update

Lorenzo L. Pence, DO, FACOFP
Senior VP Osteopathic Accreditation
AACOM 2018 Annual Conference
COSGP Meetings
Renaissance Hotel, Washington DC
April 20, 2018
Disclosures

I have nothing to disclose or any financial conflicts
Objectives

• Provide an update on the Single GME Accreditation System
• Review Board Eligibility
• Review program application statistics
• Identify resources available
ACGME Mission

“We improve health care and population health by assessing and advancing the quality of resident physicians' education through accreditation.”
Where Are We Today?

33 Months into the transition

| March 2018   | 1. ACGME Annual Conference with the 2nd ACGME-AODME Pre-Conference for Osteopathic Programs and Institutions                                     |
| April 2018   | 1. ONMM Review Committee meets, 2 additional programs achieve Initial Accreditation and 1 program moves to Continued Accreditation (Total 11)  
               2. Over 100 +, AOA programs, have achieved ACGME Accreditation since January 2018 (Total 440)                                           |
Proposed Changes CPR’s*

- CPR’s to include both:
  - Residency Common Requirements
  - Fellowship Common Requirements
- Osteopathic Board Certification
  - Acceptable criteria
    - Program Directors
    - Faculty
- AOA residency training acceptable for fellowships training
- New requirement: Program Directors to provide applicants information on Board eligibility

*Comment period ended on March 22, 2018
Where Are We Today?

- AOA and AACOM DO representatives participate on the ACGME Board
- Integration of DO’s on ACGME Review Committees
- Institutions and programs applying and achieving ACGME Accreditation
- Programs applying and achieving Osteopathic Recognition
- Changes to CPR’s: Section VI complete and Sections I-V coming soon
- Resources available on the ACGME website, etc.

3. Military Match (MM)
4. Urology Match (UM)
5. San Francisco Match (SF)
Students and the Match

• Students need to familiar with the Single GME Accreditation System and the match process (AOA, NRMP, etc.)
• Students Need to take and active role in researching programs
• Students must be realistic on their competitiveness for particular specialties
• Do not forget the DO match for those eligible for 2019 Match
• Always have a back up plan
Questions for Programs Transitioning to ACGME Accreditation
Questions: Transitioning Programs

What questions should student be asking?

• Does the program have ACGME accreditation?
  o If no, has the program applied?
    ▪ If no, does the program plan to apply?
    ✓ If yes, what is the timeline?

• Which match(s) will the program participate?
Questions: Transitioning Programs

What questions should student be asking?

• Which certifying board(s) will a graduate of the program be eligible?

• Does the program have Osteopathic Recognition?
  o If no, has the program applied?
    ▪ If no, does the program plan to apply for Osteopathic Recognition?
      ✓ If yes, what is the timeline?
Board Eligibility
Pre-Accreditation

Student matches into an AOA program in Pre-Accreditation but the program never achieves ACGME Accreditation

- Student has matched into an AOA Accredited program
- Eligible for AOA Board Certification when completes program (Not eligible for ABMS)
- Eligible to apply for some ACGME Fellowships (eligibility rules in place in 2013 or 2016, whichever is less restrictive)
- Exceptionally Qualified Applicant Provision - eligible for some fellowships (specialty dependent)
Pre-Accreditation

Student matches into an AOA program in Pre-Accreditation that later achieves ACGME Accreditation

• Student has matched into an AOA Accredited program that now has achieved ACGME Accreditation
• Eligible for AOA Board Certification when completes program
• May be Eligible for ABMS Boards (Board certification eligibility is determined by the individual certifying boards)
• Eligible to apply for ACGME Fellowships
Continued Pre-Accreditation

Student matches into an AOA program in Continued Pre-Accreditation but the program never achieves ACGME Accreditation

- Student has matched into an AOA Accredited program
- Eligible for AOA Board Certification when completes program (Not eligible for ABMS)
- Eligible to apply for some ACGME Fellowships (eligibility rules in place in 2013 or 2016, \textit{whichever is less restrictive})
- Exceptionally Qualified Applicant Provision - eligible for some fellowships (\textit{specialty dependent})
Continued Pre-Accreditation

Student matches into an AOA program in Continued Pre-Accreditation that later achieves ACGME Accreditation

- Student has matched into an AOA Accredited program that now has achieved ACGME Accreditation
- Eligible for AOA Board Certification when completes program
- May be Eligible for ABMS Boards (*Board certification eligibility is determined by the individual certifying boards*)
- Eligible to apply for ACGME Fellowships
Initial or Continued Accreditation

Student matches into a program that has achieved ACGME Initial or Continuing Accreditation

- Student has matched into an ACGME Accreditation
- Eligible for AOA Board Certification and/or ABMS Boards when completes program
- Eligible to apply for ACGME Fellowships
Initial Accreditation Contingent

Student matches into an AOA program in Initial Accreditation Contingent but the Institution never achieves ACGME Accreditation

• Student has matched into an AOA Accredited program
• Eligible for AOA Board Certification when completes program (Not eligible for ABMS)
• Eligible to apply for some ACGME Fellowships (eligibility rules in place in 2013 or 2016, whichever is less restrictive)
• Exceptionally Qualified Applicant Provision - eligible for some fellowships (specialty dependent)
Initial Accreditation Contingent

Student matches into an AOA program in Initial Accreditation Contingent and the Institution achieves ACGME Accreditation

- Student has matched into an AOA Accredited program that now has achieved ACGME Accreditation
- Eligible for AOA Board Certification when completes program
- May be Eligible for ABMS Boards *(Board certification eligibility is determined by the individual certifying boards)*
- Eligible to apply for ACGME Fellowships

Single Accreditation Website

Single GME Accreditation System (NEW)

On February 26, 2014, the ACGME, American Osteopathic Association (AOA), and American Association of Colleges of Osteopathic Medicine (AACOM) announced their agreement to a Memorandum of Understanding (MoU) outlining a single graduate medical education accreditation system in the United States. The single GME accreditation system allows graduates of allopathic and osteopathic medical schools to complete their residency and fellowship education in ACGME-accredited programs and demonstrate achievement of common milestones and competencies.

Read the Executive Summary of the MoU to learn more about the agreement.

AOA Residents and Medical Students

What AOA Residents and Students Need to Know About the Single GME Accreditation System

1. Identify AOA-approved programs that have applied for ACGME accreditation
2. Pre-Accreditation
3. Locate Program Requirements and Other Specialty-Specific Information
4. Osteopathic Recognition
   Osteopathic Recognition was created by the ACGME as a part of the transition to a single GME accreditation system, so that programs’ osteopathic identity can be maintained under ACGME accreditation. Any ACGME-accredited or pre-accredited program may apply for Osteopathic Recognition, which is overseen by the Osteopathic Principles Committee.
   Learn more about Osteopathic Recognition.
   Identify programs that have applied and received Osteopathic Recognition in this report.
   Direct questions about Osteopathic Recognition to Executive Director for Osteopathic Accreditation Tiffany Moss 312.755.5490 or tmoss@acgme.org
5. Protection of AOA Residents During the Transition to a Single GME Accreditation System

# Fellowship Eligibility

## FAQ's: SAS

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Eligibility for Fellowship</td>
<td>Effective July 1, 2016, eligibility requirements for all fellowship positions require completion of prerequisite training in a program accredited by the ACGME, the RCPSC, or the College of Family Physicians of Canada (CFPC). Between July 1, 2015 and June 30, 2020, a resident who completes prerequisite training in an AOA-approved program with pre-accreditation status will be subject to the ACGME fellowship eligibility standards (per subspecialty) that were in effect June 30, 2013 or July 1, 2016, whichever is less restrictive.</td>
</tr>
<tr>
<td>Will individuals who are currently enrolled in AOA-approved residency programs be eligible for entry into ACGME-accredited fellowships?</td>
<td>A number of Review Committees (<a href="https://www.acgme.org">see here for a list</a>) allow programs to grant an exception to the eligibility requirements for prior training. If an individual graduated from a program with pre-accreditation status, is appointed to a fellowship program based on the &quot;exceptionally qualified applicant provision&quot; detailed in the ACGME Common Program Requirements, and has successfully completed Levels I, 2, and 3 of COMLEX USA, then that individual will not be required to take USMLE. <strong>NOTE:</strong> Some subspecialties did not in 2013, and will not in 2016, accept as prerequisite training anything other than completion of an ACGME-accredited program. <em>The eligibility requirements for every ACGME-accredited subspecialty that were in effect as of June 30, 2013, that were/are in effect between June 30, 2013 and July 1, 2016, and that will be in effect as of July 1, 2016, are posted on the Single GME Accreditation System section of the ACGME website.</em></td>

</table>
AAMC Video Interview

- Standardized Video Interview (SVI) program
- 2019 NRMP Match for Emergency Medicine
  - Piloted - 2018 NRMP Match
- Developed by the Association of American Medical Colleges (AAMC)
- Incorporated into Electronic Residency Application Service (ERAS)
- MyERAS – applicants register for SVI if they plan to apply to EM
- **Not** an ACGME rule
AAMC Video Interview

• All applicants applying to ACGME Accredited EM programs to complete SVI (required yes/no)
  o No Fees
  o Must acknowledge that you have read and understand the rules when first launching SVI (legally binding contract)
• Allows applicants to share objective performance-based information about themselves
  o Add breadth and depth to applicants application
  o Provides program director with additional information to assess applicants
  o Scored by trained rater using a scale designed for the SVI (range 6-30)
AAMC Video Interview

Key prerequisites for success in residency and practice

• Video interview designed to assess
  • Interpersonal and Communication Skills
    • Oral Communication
    • Emotional Intelligence
    • Teamwork and Leadership
  • Professional Behaviors (Professionalism)
    • Empathy and Altruism
    • Ethics
    • Cultural Competence
    • Conscientiousness
Online interview

• 6 questions
  o 30 seconds to read questions
    ▪ 3 minutes to respond to each question

• AAMC resources available today and will be updated in March 2018
  *(The AAMC Standardized Video Interview: Essentials for the ERAS 2019 Season)*

• Applicant may only complete once
• Applicants can not retake to improve score
2018 AOA Match

- 6,224 Matched/Placed (98.75%)
- 121 Not Matched

*April 16, 2018
Agreement to Protect Residents

What happens to residents in programs that do not achieve ACGME accreditation?

- Provides protection for residents in AOA-approved training programs, which do not achieve ACGME accreditation prior to June 30, 2020
  - Unique circumstances that may limit a residents ability to complete program by June 20, 2020
- ACGME, AOA, and AACOM agreement
- AOA will have restricted authority to extend AOA accreditation date
- Allows residents to complete training and be eligible for AOA Board Certification
ACGME Growth Over The Last Decade
ACGME-Accredited Programs

![Graph showing the growth of accredited programs from 2007-2008 to 2016-2017. The graph indicates a 26% increase in total programs, a 33% increase in specialty programs, and an 18% increase in subspecialty programs.]
