AACOM Informational Webinar
on the Single GME Accreditation System

Monday, June 26, 2017  |  6:00 PM ET
Speakers

• Stephen C. Shannon, DO, MPH, President & CEO, American Association of Colleges of Osteopathic Medicine (AACOM)

• Boyd R. Buser, DO, AOA, President, Vice President of Health Affairs and Dean of the University of Pikeville-Kentucky College of Osteopathic Medicine (UP-KYCOM)

• Lorenzo Pence, DO, Senior Vice President for Osteopathic Accreditation, ACGME
This webinar is being recorded, recording will be shared with participants and posted on AACOM’s website within a week.

Webinar participants are in listen-only mode.

Please make sure your computer volume is turned up. The audio for today’s event will be streamed through your computer speakers.

For technical issues, please use the chat feature and raise your hand and we will assist you.

You may submit questions anytime during this live webinar using the chat feature. If time remains after speaker presentations, we will select and address questions received during the webinar.

Responses to questions not addressed during this webinar will be responded to directly via email or will be incorporated in frequently asked questions on AACOM’s web page.
AACOM
Single Accreditation System
Student Webinar

Boyd R. Buser, D.O., FACOFP dist.
President, AOA

June 26, 2017
Benefits

- Consistent evaluation and accountability
- Enhanced opportunities for trainees
- Eliminates unnecessary duplication
- Generates cost-savings in accreditation
- One transparent accreditation system
So what is changing?

AOA & AACOM integrated into governance and operations of new ACGME
The agreement **streamlines** the accreditation of GME programs but **preserves and protects** the distinctive elements of the osteopathic medical education continuum.
Understanding each Player’s Role is half the ballgame

- Residency Program Accreditation Authorities
  - AOA
  - ACGME

- Matching Services
  - National Matching Service (aka NMS, AOA Match, osteopathic match)
  - National Residency Matching Program (aka NRMP, allopathic match)

- National Exams Leading to a License to Practice Medicine
  - COMLEX – USA (the osteopathic licensing exam)
  - USMLE (the allopathic licensing exam)
Understanding each Player’s Role is half the ballgame

- Board Certification in your Specialty (Pediatrics, Internal Medicine, etc.)
  - AOA (Bureau of Osteopathic Specialists)
  - American Board of Medical Specialties

AACOM Student Webinar June 26, 2017
We are transitioning 1,244 AOA programs into the new system by June 30, 2020. So what is the Progress?? We are ahead of schedule…

54% of 1,244 programs ACGME accredited or pre-accredited
• 70% of 862 residencies
• 17% of 261 fellowships
• 21% of 121 internships
AOA Programs
6/19/2017, N=1,244

Accredited (415) + Submitted (259)  Applying (364)  Closed (144)  Unsure (62)

0%  20%  40%  60%  80%  100%
Osteopathic GME under the unified accreditation system will be through ACGME programs with the status of Osteopathic Recognition.

Conferred upon any ACGME-accredited graduate medical education program providing requisite training in the Osteopathic Principles and Practices (OPP).

AOA’s Standard X requires training programs enter into the SAS process or stop taking residents if training would go beyond June 30, 2020.

If your AOA program does not achieve ACGME accreditation by June 30, 2020, you are protected.

AACOM, AOA, ACGME agree that the AOA will retain accreditation authority to allow any remaining residents to complete training in an accredited program so they can become AOA board eligible.

AACOM Student Webinar June 26, 2017
Single GME Accreditation System Update

Lorenzo L. Pence, DO, FACOFP
Senior VP Osteopathic Accreditation
AACOM Single Accreditation System Student Webinar

June 26, 2017
Disclosures

I have nothing to disclose or any financial conflicts
Objectives

• Provide an update on the Single accreditation System
• Discuss Emergency Medicine Video Interview
• Define
  • Pre-accreditation
  • Continued Pre-accreditation
  • Initial Accreditation
  • Initial Accreditation Contingent
• Review ACGME Website for Student Resources
• Review Program application statistics
ACGME Mission

“We improve health care and population health by assessing and advancing the quality of resident physicians' education through accreditation.”
Where Are We Today?

24 months into the transition
AOA-Approved*

Programs

- Residency Programs: 862
- Internships: 121
- Fellowships: 261

Total: 1,244

Dually accredited programs

- Residency: 154
- Fellowships: 11
  
Total: 165

- OPTI’s: 20

*As of July 1, 2015
What Should Students Be Asking Programs

• Does the program have ACGME accreditation?
  • If no, has the program applied?
    • If no, does the program plan to apply?
    • If yes, what is the timeline?

• Which match(s) will the program participate?
What Should Students Be Asking Programs

• Which certifying board(s) will a graduate of the program be eligible?

• Does the program have Osteopathic Recognition?
  • If no, has the program applied?
    • If no, does the program plan to apply for Osteopathic Recognition?
    • If yes, what is the timeline?
AOA Programs Transitioning to ACGME Accreditation

Terms

• Pre-accreditation

• Continued Pre-accreditation

• Initial accreditation

• Dual accredited program

• Parallel Program
Pre-Accreditation

- AOA Programs that have applied for ACGME accreditation but have not been reviewed by an ACGME Review Committee

- These programs maintain their full AOA accreditation
Pre-Accreditation

- Created for and to be applied only during the transition to ACGME accreditation for currently AOA-approved programs
- Extended to include institutions
- Is not synonymous with Initial Accreditation
- Granted upon receipt of completed application
- Does not require Institutional review committee/Residency Review Committee review
- Status will be publicly acknowledged
Pre-Accreditation

• Once pre-accreditation is granted, programs and sponsors must participate in all required annual ACGME reporting:

• Programs with pre-accreditation status can begin the application process for Osteopathic Recognition. Once programs achieve Initial Accreditation, applications can be reviewed by the Osteopathic Recognition Committee.

• June 30, 2020 – All sponsoring institutions and programs must achieve initial accreditation. The AOA ceases to accredit GME programs.
Continued Pre-Accreditation

• AOA Institutions or Programs that have been reviewed by the appropriate review committee (IRC/RRC) but have not yet achieved ACGME initial accreditation are noted as having “continued pre-accreditation” status

• Institutions or programs are still fully accredited by the AOA

• Institutions or programs will receive full report from IRC/RRC with a full description of the requirements that need to be addressed
Initial Accreditation

• AOA Institution or Program application that has been reviewed by the appropriate review committee (IRC/RRC) and the committee has determined the new program or institution substantially complies with requirements

• Institution or program has achieved ACGME Accreditation
Initial Accreditation Contingent

• The appropriate review committee has determined the application for a new program substantially complies with the requirements but the sponsoring institution has not achieved initial accreditation from the IRC

• Program can not be ACGME accredited until sponsoring institution has initial accreditation

• The program still has full AOA accreditation

• Upon Institution achieving Initial Accreditation, the program will achieve ACGME Accreditation (sponsoring institution has 24 month window to achieve initial accreditation or program must resubmit its application
Dually-Accredited Programs

- Refers to programs that are accredited by both the ACGME and the AOA
- Dually-accredited programs do not need to do anything by way of application in the SAS.
- They may need to ask RC for complement increase if residents in the AOA program are not currently counted in ACGME complement.
- They may seek Osteopathic Recognition
Parallel-Accredited Programs

• Refers to two programs in the same specialty / subspecialty and in the same institution with one accredited by ACGME and one accredited by AOA but with no overlap between the two.

• *May* remain separately accredited through application of AOA-approved program but...

• Expect in most instances programs will merge

• They *may* seek Osteopathic Recognition
<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
</table>
| **How will the agreement among the ACGME, the AOA, and AACOM affect DOs in or entering AOA-approved programs between July 1, 2015 and June 30, 2020?**                                                                 | Effective July 1, 2016, eligibility for all advanced residency positions require completion of prerequisite training in a program accredited by the ACGME, the Royal College of Physicians and Surgeons of Canada (RCPSC), or the College of Family Physicians of Canada (CFPC).  
  
  During the transition to a single GME accreditation system, some disciplines will accept AOA-approved prerequisite training for entry into advanced residency positions in ACGME-accredited programs. Others require that prerequisite training occur only in ACGME-accredited programs for such eligibility.  
  
  Between July 1, 2015 and June 30, 2020, a resident who completes prerequisite training in an AOA-approved program with pre-accreditation status from the ACGME will be subject to the eligibility standards (per specialty) that were in effect June 30, 2013 or July 1, 2016, whichever is less restrictive. |
<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Are individuals currently in AOA-approved programs eligible to transfer to ACGME-accredited programs to complete residency? If so, will they be given credit toward board certification for time completed in their AOA-approved programs?</td>
<td>The issue of resident transfers between programs is not addressed in the agreement among the ACGME, the AOA, and AACOM, and the currently-in-effect ACGME Program Requirements for each specialty remain applicable.[...]For an individual planning such a transfer, the ACGME Review Committee staff should be contacted to determine if the individual’s prior training meets ACGME eligibility requirements, and the relevant ABMS board should be contacted to ask whether the portion of their training completed in an AOA-approved program will be applicable toward board certification.</td>
</tr>
</tbody>
</table>
### Eligibility for Residency

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Must DO candidates pass United States Medical Licensing Examination (USMLE) examinations in order to be eligible to apply to ACGME-accredited residency programs?</td>
<td>No. To be eligible for appointment to ACGME-accredited residency programs, candidates must have graduated from a medical school accredited by the LCME or the AOA, or hold a currently-valid certificate from the Educational Commission for Foreign Medical Graduates (ECFMG), or hold a full and unrestricted license.</td>
</tr>
<tr>
<td>Question</td>
<td>Answer</td>
</tr>
<tr>
<td>------------------------------------------------------------------------------------------------------------------------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Are graduates of AOA-approved programs that achieve Initial Accreditation prior to their graduation eligible for ACGME-accredited fellowships?</td>
<td>Residents who graduate from an AOA-approved program that achieves ACGME Initial Accreditation prior to their graduation are eligible for ACGME-accredited fellowship programs, even if not all of the prerequisite clinical education required for entry into the fellowship was completed under ACGME accreditation. Eligibility for and completion of ACGME-accredited programs does not guarantee eligibility for board certification. Board certification eligibility is determined by the individual certifying boards. Questions regarding eligibility for ABMS member board certification should be directed to the appropriate ABMS member board; questions about AOA certification should be directed to the appropriate AOA specialty certifying board.</td>
</tr>
</tbody>
</table>
### FAQs: SAS

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Eligibility for Fellowship</td>
<td>Effective July 1, 2016, eligibility requirements for all fellowship positions require completion of prerequisite training in a program accredited by the ACGME, the RCPSC, or the College of Family Physicians of Canada (CFPC). Between July 1, 2015 and June 30, 2020, a resident who completes prerequisite training in an AOA-approved program with pre-accreditation status will be subject to the ACGME fellowship eligibility standards (per subspecialty) that were in effect June 30, 2013 or July 1, 2016, whichever is less restrictive. A number of Review Committees (see here for a list) allow programs to grant an exception to the eligibility requirements for prior training. If an individual graduated from a program with pre-accreditation status, is appointed to a fellowship program based on the “exceptionally qualified applicant provision” detailed in the ACGME Common Program Requirements, and has successfully completed Levels I, 2, and 3 of COMLEX USA, then that individual will not be required to take USMLE. NOTE: Some subspecialties did not in 2013, and will not in 2016, accept as prerequisite training anything other than completion of an ACGME-accredited program.</td>
</tr>
</tbody>
</table>

*The eligibility requirements for every ACGME-accredited subspecialty that were in effect as of June 30, 2013, that were/are in effect between June 30, 2013 and July 1, 2016, and that will be in effect as of July 1, 2016, are posted on the Single GME Accreditation System section of the ACGME website.*
ACGME Website

Link to Single GME Accreditation System or scroll down
Single GME Accreditation System (NEW)

On February 26, 2014, the ACGME, American Osteopathic Association (AOA), and American Association of Colleges of Osteopathic Medicine (AACOM) announced their agreement to a Memorandum of Understanding (MOU) outlining a single graduate medical education accreditation system in the United States. The single GME accreditation system allows graduates of allopathic and osteopathic medical schools to complete their residency and/or fellowship education in ACGME-accredited programs and demonstrate achievement of common Milestones and competencies.

Read the Executive Summary of the MOU to learn more about the agreement.

What AOA Residents and Students Need to Know About the Single GME Accreditation System

1. Identify AOA-approved programs that have applied for ACGME accreditation
2. Pre-Accreditation
3. Locate Program Requirements and Other Specialty-Specific Information
4. Osteopathic Recognition

Osteopathic Recognition was created by the ACGME as a part of the transition to a single GME accreditation system, so that programs’ osteopathic identity can be maintained under ACGME accreditation. Any ACGME-accredited or pre-accredited program may apply for Osteopathic Recognition, which is overseen by the Osteopathic Principles Committee.

Learn more about Osteopathic Recognition.
Identify programs that have applied and received Osteopathic Recognition in this report.

Direct questions about Osteopathic Recognition to Executive Director for Osteopathic Accreditation Tiffany Moss: 312.755.5490 or tmoss@acgme.org

No Resident Left Behind

- Unique circumstances that may limit a resident's ability to complete program by June 20, 2020
- ACGME, AOA, and AACOM agreement
- AOA with have restricted authority to extend AOA accreditation date
- Allows residents to complete training and be eligible for AOA Board Certification
AAMC Video Interview

- Association of American Medical Colleges (AAMC) Standardized Video Interview pilot program

- AAMC and ERAS rule, **not** an ACGME rule

- New for 2018 NRMP Match for Emergency Medicine

- All applicants applying to EM programs required to complete video interview (incorporated into ERAS)

- Allows applicants to share objective performance-based information about themselves
AAMC Video Interview

• Add breadth and depth to applicants application

• Provides program director with additional information to assess applicants

• Video interview designed to assess
  • knowledge of profession behavior (professionalism)
  • Interpersonal skills
  • Communication skills
AAMC Video Interview

Online interview
• 6 questions
  • 30 seconds to read questions
    • 3 minutes to respond to each question

• AAMC resources have been available since May 1

• Applicant may only complete once

• Applicants can not retake to improve score
## ONMM Residency

</tr>
</tbody>
</table>

^Must be able to complete outlined rotations during the first year.
^^Must complete a minimum of 12 months of NMM rotations.
**Must have been in an osteopathic-focused position in a program with
Osteopathic Recognition or have been in an AOA-approved program.
Combined and Integrated Residencies

- Combined training consists of a coherent educational experience in two or more closely related specialty or subspecialty programs. (IM/EM, FM/EM, etc.)

- Educational plan for combined training is approved by the certification board of each specialty

- Assure that resident physicians completing combined training are eligible for board certification in each component specialty
Combined and Integrated Residencies

• Each specialty program is separately accredited by ACGME through its respective specialty review committee

• Duration of combined training is longer than any one of its component specialty programs standing alone, and shorter than all of its component specialty programs together

• Integrated programs similar to combined with no shorting of training
ACGME Programs*

  - 1 Sports Medicine

Osteopathic Review Committee can not review Osteopathic Recognition applications until programs have achieved initial accreditation.
Thank you
In early 2014, the Accreditation Council for Graduate Medical Education (ACGME), the American Osteopathic Association (AOA), and the American Association of Colleges of Osteopathic Medicine (AACOM) approved an agreement to transition to a single accreditation system for graduate medical education (GME) by July 2020. See Student Primer.
